

Garg Technologies & Concepts Pvt. Ltd.

Empowering your business and keeping it ahead

COMPANY PROFILE

Garg
TECHNOLOGIES

Empowering your business and keeping it ahead.

Organisations use our products to become more productive and efficient. If you are passionate about your business and want to give an edge to your management and executives across departments, we would love to sit with you.

INTRODUCTION

We believe in strong business relationships with customers and partners, empowering them to use and extend our products and services to their advantage.

The company has a focus on innovation and strives for excellence in its products and services. The investment in Sun wheel excellence Centre (sXc) drives and enables continuous improvement in the products and services to cater to the ever changing industry requirements.

We provide Best in Class products and services and try to do it while being personable, reliable and detailed.

ABOUT US

Established in 2010, Garg Technologies & Concepts Pvt. Ltd. aims to provide and empower Small and Medium Enterprises (SME) with productive and affordable technology solutions.

The Company

The company has a focus on innovation and strives for excellence in its products and services.

This not only pushes each of us to excel but also ensures that we preserve our company culture and continuity in leadership. It allows each of us to assume different roles and responsibilities.

The company believes in the philosophy of growing its own employees to become next day team leaders and managers. Rather than hiring from outside we push growth from within.

The investment in Sun wheel excellence Centre (sXc) drives and enables continuous improvement in the products and services to the advantage of end users.

OUR VALUE

OUR VISION

To empower businesses with flexible and dynamic solutions, enabling them to meet their changing management needs and focus more on their core business propositions.

To create and nurture an employee and partner network that is passionate to serve.

OUR MISSION

By 2020, to establish at least 5 of our products as market leaders in the SME Segment by developing a strong and committed employee base and a passionate partner network covering at least 100 countries.

OUR VALUE

Integrity

We value and expect integrity in all that we do. Being open, honest and transparent in all our dealings.

Professionalism

We strive to service timely, be responsive, pro-active and aim to delight. We like honouring agreements.

Ownership

Taking ownership and control makes our people responsible in the projects and tasks undertaken.

Company History

Microsoft and other partnerships played an important role for us to explore new technologies and expand our horizons.

Line of Business

Innovation and value addition are the driving forces at Sunwheel Excellence Centre.

All our products gain from the technology we have been acquiring and learning on a regular basis. We try to incorporate into products what we learn daily, so that the benefit reaches our maximum client base.

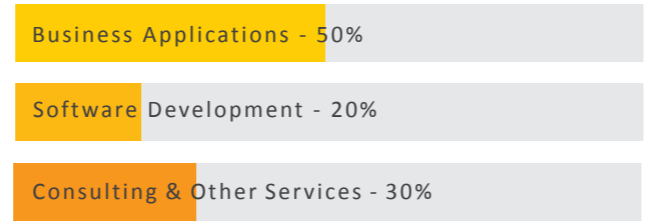

The product and service range has been continuously expanding. The journey has been very interesting, challenging and equally satisfying when we see the customers enjoying their experience with our products.

The products range includes 'Business Billing Mantra', 'B2C Bizplat', 'CA Matrix', 'SXC Business Suite', 'Recruit Plus: Redefining Manpower Processing'.

We also undertake consulting and development assignments for specialised business needs.

Karan Chowdhary
Director
 DIO Consulting Pvt. Ltd.

As per our experience, the company is very good; specially the director always gives good ideas and support.

I am really quite happy to deal with Garg Technologies as they are highly reliable and always believe in delivering on the requirement stated to them. I also liked the no-nonsense approach and 24x7 customer service. All in all, I am delighted to have them as my IT Service provider. I highly recommend them for their business.

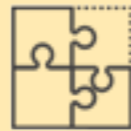

Garg Technologies & Concepts Private limited has been pivotal in enabling us in delivering state of the art solutions for our clients. Their pr-partner collaborative approach and continued support helps us in retaining and nurturing long term business relationships with our clients and other associates. We look forward for their continued support and partnership!

Future Business

Technology landscape offers a wide range of options for us to grow and keep moving

We are very excited about the future possibilities and upcoming technologies and each of them opens a new sphere of opportunities for us to learn, invest and come up with new products and services.

WHAT'S NEXT?

Taking the power of sXc Business Suite combined with the utility of Business Networking platforms and e-commerce portals to business communities.

PARTNERSHIP PROGRAM

We are looking for partners in our business who are equally passionate about their customers and want to share the experience and journey with us.

Our partnership programs allow you to start small and grow as big as you can dream, deliver and manage.

Ethical conduct and integrity are some of the traits that drive the partnership with us.

MOBILE APPLICATIONS

All of our major applications shall have mobile application(s) to complement the desktop / laptop for the users to work on. Tablet and other surface type devices shall also be covered under them.
